

It might not  
be rocket science,  
but it comes  
pretty darn close.

## introducing the hp document router

It's here! An award-winning new information delivery product that provides a single way to reach virtually any output destination, from any application. A product based on proven technology that has been meeting the needs of Fortune 1000 enterprises for more than nine years.

The hp document router. The next big step in HP innovation.
