REGISTER FOR THE FREE WEBINAR AND RECEIVE THE BONUS WHITE PAPER, "SMARTDBA—YOUR POWER SOLUTION FOR BACKUP AND RECOVERY."

Find out how to simplify your backup and recovery in the FREE white paper, "SmartDBA™—Your Power Solution for Backup and Recovery." In this white paper, you'll learn how SmartDBA from BMC Software has the features DBA's need to make backup and recovery fast, flexible, automated and manageable.

Get details on how you can:

- > Manage archive logs intelligently during backup and recovery
- > Achieve new breadth of capabilities without sacrificing ease of use and productivity
- > Maintain database performance—even during large-scale backups
- > Maximize your limited time and resources
- > Attain "install-it-and-forget-it" peace of mind with no version control worries

Let us show you how to:

- > Assure fast, predictable recoveries of your business-critical databases
- > Minimize application downtime with end-to-end recovery processes
- > Speed up diagnosis and recovery times with automation
- > Reduce complexity with comprehensive backup and recovery strategies
- > Demonstrate value to the organization by ensuring business continuity

SmartDBA takes the complexity out of doing backups and recoveries. With support for Oracle®, MS SQL Server™, IBM DB2® Universal Database and Sybase® database platforms, SmartDBA advises you on issues you may not have encountered and provides quick, effective solutions. For years, DBA's have relied on SQL-BackTrack™, the cornerstone of our SmartDBA recovery solution.

Attending the FREE webinar, "Key Success Factors for Database Backup & Recovery," will help you identify the ideal backup and recovery solutions for your organization. Learn exactly how to deliver fast, predictable database recoveries. Meet your SLAs. And relax.
